

## Project Planning Phase

### Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)

|               |                                      |
|---------------|--------------------------------------|
| Date          | 19 October2022                       |
| Team ID       | PNT2022TMID03116                     |
| Project Name  | Personal Expense Tracker Application |
| Maximum Marks | 8Marks                               |

#### Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Use the below template to create product backlog and sprint schedule

| Sprint   | Functional Requirement (Epic) | User Story Number | User Story / Task  | Story Points | Priority | Team Members    |
|----------|-------------------------------|-------------------|--|--------------|----------|-----------------|
| Sprint-1 | Registration                  | USN-1             | Register for the application by entering email, password, and confirmingpassword.  | 2            | High     | Amirta Varshini |
| Sprint-1 |                               | USN-2             | As a user will receive confirmation email once have registered for the application | 1            | High     | Amirta Varshini |
| Sprint-2 |                               | USN-3             | Register for the applicationthrough Facebook                                       | 2            | Low      | Bhoomika        |
| Sprint-1 |                               | USN-4             | User register for the application through Gmail                                    | 2            | Medium   | Garishma        |
| Sprint-1 | Login                         | USN-5             | User log into the application byentering email & password                          | 1            | High     | Garishma        |
| Sprint-3 | Dashboard                     | USN-6             | Expenditure details on the application   | 3            | High     | Darshini        |
| Sprint-3 | Limits                        | USN-6             | User can set monthly expense limit sothat receive a mail on exceeding              | 4            | High     | Darshini        |
| Sprint-4 | Reports                       | USN-6             | View the graphical form of expenses category wise                                  | 5            | Medium   | Abirami         |

**Project Tracker, Velocity & Burndown Chart: (4 Marks)**

| Sprint   | Total Story Points | Duration | Sprint Start Date | Sprint End Date (Planned) | Story Points Completed (as on Planned End Date) | Sprint Release Date (Actual) |
|----------|--------------------|----------|-------------------|---------------------------|---|------------------------------|
| Sprint-1 | 6                  | 6 Days   | 15 Oct 2022       | 30 Oct 2022               | 6   | 30 Oct 2022                  |
| Sprint-2 | 2                  | 6 Days   | 30 Oct 2022       | 05 Nov 2022               | 2   | 05 Nov 2022                  |
| Sprint-3 | 7                  | 6 Days   | 05 Nov 2022       | 12 Nov 2022               | 7   | 12 Nov 2022                  |
| Sprint-4 | 5                  | 6 Days   | 12 Nov 2022       | 19 Nov 2022               | 5   | 19 Nov 2022                  |

**Velocity:**

Imagine we have a 10-day sprint duration, and the velocity of the team is 20 (points per sprint). Let's calculate the team's average velocity (AV) per iteration unit (story points per day)

$$AV = \frac{\text{sprint duration}}{\text{velocity}} = \frac{20}{10} = 2$$

**Burndown Chart:**

A burn down chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time.
